

***Connecting People to Information:
It's our mission.***

Vector Resources designs, implements and maintains unified voice, video and data networks that drive business.

Founded in 1988, Vector Resources is today one of the Southwest's premiere network integration companies.

Our clients include Fortune 500 companies, global shipping and logistics companies, large urban school districts, major research universities, private hospitals, and all varieties of small and medium-sized businesses.

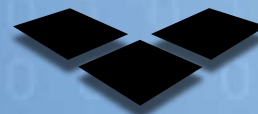

We partner with best-in-class network product manufacturers, and we work closely with our clients to design custom network solutions.

Our Network Services:

- Network Consultation and Design
- Remote Monitoring — Vector InsightSM
- Network Security
- Unified Communications/IP Telephony
- Video Surveillance and Access Control
- Video and Teleconferencing
- Wireless Networks
- Core Networking
- Structured Cabling
