

LiNC-Ez SYSTEM HIGHLIGHTS

- Fully Automated Windows Based Installation Program
- Preprogrammed Management Schedules & Authorization Levels
- Alarm Monitoring and Central Station Reports
- User Friendly Reports ■ Analog Temperature Control
- 2–64 Doors & All Sophisticated Features of an Enterprise Offering

COMPATIBLE PCSC PRODUCTS

LiNC-Ez iD · LiNC-VIEW · NRX · iAM

LiNC-NET SYSTEM HIGHLIGHTS

- Microsoft Windows® Based Software
- Password Controlled Data Segregation
- User Defined Reporting
- Total Communication Compatibility
- Automatic Scheduling (Downloads & Reports)
- Operator Audit

COMPATIBLE PCSC PRODUCTS

IQ Series · Ultimate · SIM · ELV · LiNC-ID · LiNC-VIEW

LiNC-SQL SYSTEM HIGHLIGHTS

- Utilizing Microsoft SQL Database Management System
- User Defined Reporting
- Total Communication Compatibility
- Automatic Scheduling (Downloads & Reports)
- 5-State Alarm Monitoring

COMPATIBLE PCSC PRODUCTS

IQ Series · Ultimate · SIM · ELV · LiNC-ID · LiNC-VIEW

LiNC-PLUS SYSTEM HIGHLIGHTS

- Enterprise Management System
- Integrated Photo ID, Video and DVR capabilities
- User Defined Access, Alarm, Sound, PLC, and Video GUI
- Pager and Mobile Phone Alert Notification
- Live Video Display and Recording Modules
- Card Management and Video Badging Systems

COMPATIBLE PCSC PRODUCTS

IQ Series · Ultimate · SIM · ELV

Add-On Software Packages for LiNC-Ez

LiNC-Ez iD™ Badging Made Simple

A video badging system for use with LiNC-Ez software. This badging design software provides all one needs to design and print professional badges. This add-on module is complimentary with any PCSC printer purchase. 1pcsc.com/linc-ezid

LiNC-VIEW™ Integrated GUI for LiNC-Ez

This powerful alarm graphical user interface is also available for use with LiNC-Ez. Designed for extreme ease in programming and use. 1pcsc.com/linc-view

Established in 1983, PCSC is a leading global solutions provider and manufacturer of building controls and security information systems. Our focus is to help companies achieve their goals by offering services and products that allow them to focus on their strengths. We understand and provide the necessary education and training for our business partners, which assists them in achieving success.

Software

PCSC offers a full line of scalable software to meet every security need. From our entry level LiNC-Ez system to our fully scalable LiNC-PLUS, PCSC provides the necessary software to manage all types of facilities.

LiNC-Ez™

Combination Building Management & Alarm Monitoring

PCSC's entry level building management system designed for site applications with access control and alarm monitoring needs. Optional Alarm Viewing Interface and Badging Software Available. 1pcsc.com/linc-ez

LiNC-NET®

A Benchmark for Total Access Control

This completely scalable and modular software package can expand from two doors to thousands of doors effortlessly and effectively. 1pcsc.com/linc-net

LiNC-SQL™

Database Power of Microsoft's SQL

The same powerful features and services offered by LiNC-NET, only now utilizing the powerful Microsoft® SQL database system. 1pcsc.com/sql

LiNC-PLUS™

Enterprise Management System

Designed to integrate, control and manage electronic security components and subsystems from multiple manufacturers into a single, functionally enhanced centrally controlled information system. 1pcsc.com/linc-plus

Add-On Software Packages for LiNC-NET / LiNC-SQL

LiNC-ID™ Badging Made Simple

Totally integrated video badging system for use with LiNC-NET or LiNC-SQL software. This unlimited design software provides all one needs to design and print professional identification badges. 1pcsc.com/linc-id

LiNC-VIEW™ Integrated Graphical User Interface

For use with LiNC-NET or LiNC-SQL. This powerful alarm graphical user interface is designed for extreme ease in programming and use. 1pcsc.com/linc-view

Hardware and Accessories

Magnetic Locks

PCSC provides a variety of high-quality magnetic locks. We offer 3 different models with a range of holding force from 600 lbs. to 1200 lbs.

- 12 Volt or 24 Volt Option
- U.S. and European Mount Available
- Internally Mounted Solenoid
- Heavy Duty Design

Electric Strikes

PCSC provides a variety of high-quality strikes for use in any application. Each strike has the option of being ordered in Fail Safe or Fail Secure format and in 12 or 24 VDC.

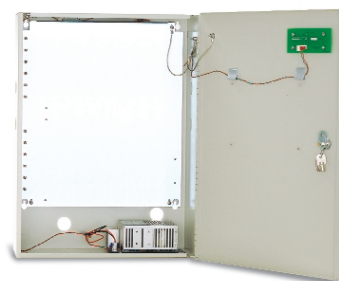

- Stainless Steel Option
- Flush Mounted
- Low Current Draw
- Full Concealment Design

Enclosures

PCSC's designed enclosures come standard with:

- Built-in Power Indicator
- Built-in Tamper Switch
- Built-in Ground Straps
- Removable Back Plate

Power Supplies

The PS series power supply with charger are universal power supplies specifically made for use with PCSC controllers.

- Self Resetting Fuses
- Fuse Protection on Each Output
- Self Contained—No Transformer Required
- World Wide Universal AC Input 90–250 Volt VAC
- Efficient-Offline Switching Power Supply
- UL Listed and NFPA 72 Compliant

Cable

PCSC has created a quality composite cable designed to meet the specific needs of the security application.

- Each Wire Independently Shielded with Drain Wire
- Wrapped with Plenum Rated Jacket and Foot Marker
- Durable and Sturdy Construction
- PCSC Branded

Digital Video Recorders

PCSC carries the complete line of Dedicated Micros DVRs.

- DVIP
- BX2
- Digital Sprite 2
- D4
- ECO4
- And Accessories

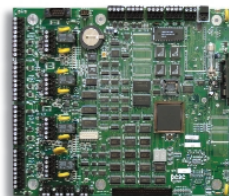

PCSC's Logical Intelligent Network Controllers (CUPs)

IQ Series™

Intelligent Controller

The IQ Series provides the best modular and open architecture products in the access control industry. It's available in a variety of models to best suit your design criteria. It supports virtually all reader types and reader and input/output capacities to support the best configuration possible. 1pcsc.com/iq

SYSTEM HIGHLIGHTS

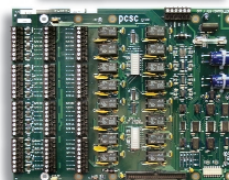

- 2, 4, 6, 8, 10, & 12 Reader Configuration
- Regional Anti-Passback
- Dynamic Input/Output Linking
- Digital Signal Processing
- One or Two Readers Per Door

COMPATIBLE PCSC SOFTWARE
LiNC-NET · LiNC-PLUS

IQ ELV™

Building Access and Elevator Control

IQ ELV™ is a fully intelligent 100% distributed elevator controller that provides for the ability to control each floor individually, based on event or time period. 1pcsc.com/iqelv

SYSTEM HIGHLIGHTS

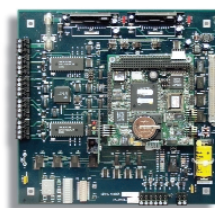

- 2 or 4 Elevator Cabs
- 16–64 Floor Control
- 20,000 Cardholders
- Electronic Updates (Flash Memory)

COMPATIBLE PCSC SOFTWARE
LiNC-NET · LiNC-PLUS

Ultimate™

The Ultimate Intelligent Controller

The Ultimate Series is the highest quality security controller on the market today. It has the capacities to satisfy any security system design criteria. With its standard cardholder base of 20,000 and expansion capabilities to meet any requirement, the Ultimate Series has no limits. 1pcsc.com/ultimate

SYSTEM HIGHLIGHTS

- 4, 8, & 12 Reader Configuration
- 32 Bit Processor
- Up to 100,000 Event Recordings
- Onboard Ethernet—Standard
- Optional Add-on Input/Output Modules

COMPATIBLE PCSC SOFTWARE
LiNC-NET · LiNC-PLUS

All PCSC controllers are designed with 100% distributed intelligence.

Once programmed, the CPU performs all functions without any other component. The PCSC controllers also offer 5-state monitoring and complete flexible communication. End result, there is no better panel.

Wireless

Technology Leading

PCSC's Intelligent controllers—utilizing the IT industry's latest and most popular communication methods. 1pcsc.com/wireless

SYSTEM HIGHLIGHTS

- All Feature Sets of the NRX
- 802.11b Wireless Network
- 802.15.4 ZigBee™ Pro Wireless Network
- WPA, WPA2, and WEP encryption
- Available in 128 AES & 256 bit Rijndael AES

COMPATIBLE PCSC SOFTWARE
LiNC-Ez

NRX™

Complete 2-Door Access Panel

PCSC's cost effective intelligent controller designed specifically for LiNC-Ez. 1pcsc.com/nrx

SYSTEM HIGHLIGHTS

- Flash Memory for Feature Updates
- Socketed Relays
- Programmable Inputs / Outputs
- Same Easy-to-Install Features of All LiNC-Ez Products

COMPATIBLE PCSC SOFTWARE
LiNC-Ez

iAM™

Alarm Monitoring and Access Control

The innovative iAM controller brings a new level of integration and control to burglary alarm management and access control. 1pcsc.com/iam

SYSTEM HIGHLIGHTS

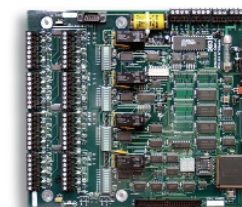

- Control 21 Zones of Alarm Monitoring Devices
- Manage Access to One Door
- Provides Automatic Disarming Features Based on Time and/or Individual
- Report Alarm Conditions to a Monitoring Center for Handling and Response

COMPATIBLE PCSC SOFTWARE
LiNC-Ez

SIM™ Series

Supervised Input Module Controller

Designed specifically for high population alarm environments, providing 32 selectable supervised input points. 1pcsc.com/sim

SYSTEM HIGHLIGHTS

- 4 or 8 Door Configuration
- 4 Form C Relay outputs
- Automatic Alarm Point Calibration
- Alarm Latching Logic
- Modular Upgrade Up to 45 Inputs and 28 Outputs

COMPATIBLE PCSC SOFTWARE
LiNC-NET · LiNC-PLUS

Cards, Readers and Accessories

Readers

—A Full Spectrum of All Types and Formats

Smart Card

- Mullion Mount
- Combination Keypad
- Wall Switch

Proximity

- Mullion Mount
- Short, Mid, & Long Range Readers
- Combination Keypad Readers
- Weather Proof Readers
- Vehicle Readers

Magstripe

- Available in Standard Data Formats
- Track II Magnetic Stripe Readers

Biometric Readers

—The Latest in Biometric Technology

- Fingerprint
- Combination Fingerprint, Proximity & Keypad
- Hand Geometry
- Facial Recognition
- Facial Recognition & Proximity

Cards

—A Complete Line of Cards to Meet Your Needs

Smart

- 13.56 MHz MIFARE Contactless Smart Card
- 13.56 MHz MIFARE & 125 kHz Proximity Card
- 125 kHz Prox Card with Embedded Contact Chip Module
- Optional Magstripe
- Direct Print

Proximity

- Passive Proximity @125kHz
- Read Ranges from 2" to 11'
- Dual Technology Card Prox/Mag
- Direct Print Cards
- Key Fobs, Vehicle-Mount, and Windshield-Mount Strips
- Self-Stick Proximity Wafers - Add Proximity Technology to Existing Identification Cards
